Illumina Sequencing Seminar - MiSeq Applications for Your Research

Are you interested in utilizing next-gen sequencing in your research but don't know where to start? Please join us for an application seminar to learn about NGS. We will discuss the basic principles of Illumina sequencing, experimental design, and local Genomics Core Facility resources. MiSeq applications to be covered include:

- **Small Genome Sequencing**
- **Targeted Resequencing**
- **16s Metagenomics & Amplicon Sequencing**
- **Small RNA & Targeted RNA Expression**

We will be holding office hours in the afternoon by appointment.*

When: Thursday, November 19, 2015
8:30 AM – 11:30 AM

Where: University of Texas at Arlington
Pickard Hall, Room 227
411 South Nedderman Drive
Arlington, Texas 76019

Speaker: Grant Hill, Library Prep Specialist, Illumina, Inc.

***Office Hours:** If you would like to schedule a time to speak with Illumina and the Core about your specific project, please contact:

Kimberly Bowles, Director
Genomics Core Facility
Department of Biology
University of Texas at Arlington
Kimberly.Bowles@uta.edu
(817) 272-9636

Register Now. Space is Limited.
